

Acrylic Roof Coating

Industry-Leading High Film Build in Just One Pass.

A48 is an innovative, high-build, fast-cure, acrylic elastomeric roof coating that offers long roof life, upgraded visual appeal, strong adhesion, high tensile strength, and excellent reflectivity. With the additional advantages of enhanced film build and reduced cure time, A48 helps you complete the job faster and with less materials.

Enhanced Film Build up to 80 mils (5 gal/SQ) with a single pass even on vertical surfaces

High Tensile Strength

Exceeds ASTM D6083 requirements

Microbial Resistance for a long-lasting, clean aesthetic

Early Rain Resistance¹ in as little as 30 minutes, full cure through in ~8 hours

Resists Dirt²

Environmentally Friendly

Sizes Available

¹ Exact cure through time will vary based on ambient temperature, humidity and mil thickness. Approximate dry time is 6-8 hours at 72 °F (22 °C) and 25% RH per coat. Please refer to PDS at Gaco.com for full information.

² On properly sloped surfaces
